Crucial Next Steps

Create Your Electronic Identity

Every CSU student and employee must have a NetID (electronic identity). You will use your NetID to log into systems and web applications, access your email, and more. You will be able to create this as soon as your assignment has been entered into the HR system, which may have already occurred. Go to netid.colostate.edu, click the “Activate” link, and follow the instructions. You will be asked to enter your NetID, which is a “C” followed by your CSU ID (a 9 digit number assigned to each employee and student, starting with an “8”) and your Activation Email. This will be your NetID even if you are a returning employee and you previously had an eID.

If you don’t know your CSU ID, please ask your department’s HR staff or visit the RamCard office to create your card and obtain your CSU ID. Your Activation Email is a non-CSU email address, usually the address you used to apply for your position at CSU. If you encounter an error message upon clicking “Continue,” you likely haven’t been entered in the HR system yet or an Activation Email has not been entered in the NetID system yet. Please consult with your department’s HR staff. If you are an existing student or employee, you already have a NetID and do not need to recreate it.

Configure DUO Dual Authentication

DUO is a tool that provides two-factor authentication to better protect your account by requiring an additional piece of information beyond your username and password. When you access certain CSU services – including Microsoft 365 applications (OneDrive, Teams, etc.) and university email accounts, VPN, using both the Pulse Client and secure.colostate.edu – you will be required to use a device that you have (your mobile phone, desk phone, a hardware token, or other device) to provide an additional layer of security to your account. This is done by receiving a push authentication request through the Duo Mobile App, a phone call, or entering a generated code.

To register your phone or other device, log in using your NetID credentials at netid.colostate.edu and choose “DUO Self Service” under “Modify Your NetID.” For more information and assistance, visit the DUO website or email help@colostate.edu.

Obtain Your RamCard

A RamCard can be issued the day after your NetID has been created. If you have an existing RamCard as a current student or employee, you do not need to obtain a new one. To have your first RamCard printed, visit the RamCard office at 271 Lory Student Center with the following:

- Your department name
- The department Kuali account number and object code the RamCard should be billed to (ask your department HR staff). Alternatively, employees who choose to pay for their first RamCard must seek reimbursement from their home department.
- Your supervisor’s name and phone number
• One original, secure, and verifiable photo identification document; options include a passport from any country, or one of the following U.S. government-issued documents:
  o State photo driver license or driver permit
  o State-issued photo identification card
  o Military ID
  o Employment Authorization Card
  o Permanent Resident Card

Employees are responsible for the replacement cost of a lost, stolen, or damaged RamCard. Visit the RamCard website for more information or contact ramcard@colostate.edu or (970) 491-2344.

RamCard Uses

The RamCard is your all-access pass to Colorado State University. You can use it to pay for items on campus, gain access to secured spaces, attend events and programs, and so much more. Uses include:

• Building access
• Identification on campus
• Dining center meals
• Use RamCash to buy food, beverages and services on campus
• Entry to athletics and other events
• Entry to events at the University Center for the Arts
• Checking out materials at Morgan Library and at any Poudre River Public Library District library
• Access to the Student Recreation Center
• Access to ride Transfort Bus System
Review the Acceptable Use for Computing and Networking Resources

Computing and data systems, equipment and services at Colorado State University are valuable and limited resources that serve a large number and variety of Users. Misuse of these resources can result in loss of integrity, functionality, speed, bandwidth and reliability of the University’s information systems, as well as violations of other laws and policies (such as those concerning conflicts of interest, privacy, etc.). The purpose of this policy is to establish what constitutes acceptable use of these resources in order to assure that they are available to everyone as needed for the University’s business needs.

Please read the complete policy here.

Preventing Harassment and Discrimination

Within a week of obtaining an email address, new hires will receive an email from EverFi-Foundry/Vector Solutions with a link to a Preventing Harassment and Discrimination Training. To ensure that we have a healthy, welcoming, and inclusive environment for all, new employees are expected to complete this training within the first two months of employment.
Foreign National Employee Resources

While an employee may start work after applying, but before receiving their SSN, they must notify Tax Services as soon as the SSN is received.

Complete GLACIER Tax Profile

Land Acknowledgement

Please view a two-minute Land Acknowledgement video here.

Colorado State University acknowledges, with respect, that the land we are on today is the traditional and ancestral homelands of the Arapaho, Cheyenne, and Ute Nations and peoples. This was also a site of trade, gathering, and healing for numerous other Native tribes. We recognize the Indigenous peoples as original stewards of this land and all the relatives within it. As these words of acknowledgment are spoken and heard, the ties Nations have to their traditional homelands are renewed and reaffirmed.

CSU is founded as a land-grant institution, and we accept that our mission must encompass access to education and inclusion. And, significantly, that our founding came at a dire cost to Native Nations and peoples whose land this University was built upon. This acknowledgment is the education and inclusion we must practice in recognizing our institutional history, responsibility, and commitment.

Access and Use Employee Self-Service

Once your NetID has been created and you have officially started employment at CSU, you can access Employee Self-Service (ESS) in the HR system. In ESS, you can:

- View and update your personal information
- View your employment and salary history
- Make changes to your direct deposit bank details
- View your pay advices

- Make benefits elections (for Admin Professional, Faculty, and Other Salaried employees such as Postdoctoral Fellows)
- Run a report of your sick and annual leave balances
- Use the Payslip Modeler to simulate paycheck scenarios by making changes to your tax withholding and/or retirement withholding deductions

Access and Guides

Employee Self-Service is accessed via the Administrative Application and Resources (AAR) portal under the “HR System” heading.

To access ESS, you must be on the campus network either physically or through the Pulse Secure VPN. Access to the campus network requires DUO dual authentication.

In ESS, you can securely view and manage many aspects of your employment by logging in with your NetID credentials. More information including step-by-step access instructions and guides to each section of ESS are available on the HR website.

Track Your Time and Leave in TimeClock Plus

TimeClock Plus (TCP) is used to track an employee’s time worked and leave. Most leave-eligible employees request sick and annual leave in TCP, and overtime-eligible employees record their time worked in the system, either by clocking in and out or enter time in an electronic timesheet. TCP is accessed through the “TimeClock Plus” link on the Administrative Applications and Resources website using the employee’s NetID credentials.

Leave Requests

State Classified, Admin Professional, and Faculty employees who accrue sick and annual leave can check their current leave balances and request leave through the Requests calendar in TCP. Graduate Assistants, student employees, and Non-Student Hourly employees should make leave requests directly to their supervisors, who will enter the time off in TCP to ensure the leave is recorded on the correct
assignment. Postdoctoral Fellows should also ask their supervisors about taking leave, as their time-off is tracked outside of TimeClock Plus.

Tracking Time

Hourly Employees on the Biweekly Pay Schedule
Hourly employees who are paid biweekly use TimeClock Plus to clock in and out when they are working. Employees can do so through the web application at the link above, but there is also a smartphone app available for clocking in and out. Some departments have physical timeclocks or kiosks set up at physical work locations for clocking hours. Please ask your supervisor or department HR staff if the department has placed any restrictions on methods for clocking in and out.

Overtime-Eligible Salaried Employees on the Monthly Pay Schedule
Salaried employees who are eligible for overtime either track their time by clocking in and out as explained above or by entering the time worked directly in the timesheet available in the TimeClock Plus web application. Some departments choose to only use clocking in and out. Please check with your supervisor or department HR staff for specifics.

Further Guidance

Please see the HR website for complete guides and further information about these topics and more, including specific guidance for supervisors and department HR staff.
