Step 3: Creating a Secondary Open Pool Posting to Hire out of the General Open Pool

# Making a hire out of a General Open Pool

The third and final step of the Open Pool process is to create a Secondary Open Pool Posting from an approved position description. Once the Secondary Open Pool Posting has been approved internally (not posted online), OEO will copy over the current applicant list from your General Open Pool Posting to the Secondary Open Pool Posting, 'capturing' the available applicant pool at the time of the open vacancy.

## Old Open Pool Process vs. New Open Pool Process:

- **Old:** Previously, the Secondary Open Pool Posting was utilized by departments to submit their **finalist interview requests**, hire request, as well as create the Hiring Proposal for their top candidate. Interviews could only be performed **AFTER** the Secondary Open Pool Posting had been approved and the current applicant pool was copied over.
- **New:** Now, departments have the ability to conduct finalist interviews, **PRIOR** to creating the Secondary Open Pool Posting, as finalist interviews no longer need to be requested through the TMS. In using this process, departments will be able to submit their hire request immediately upon OEO copying over applicants to the Secondary Open Pool. This new process eliminates the finalist interview approval point as well as removing the time delay for when a department can begin reviewing applications and scheduling interview as there is now no need to wait for the creation and approval of the Secondary Open Pool Posting. The Secondary Open Pool Posting should now only be used to submit the hire request.

The following guide will demonstrate the **New** Open Pool Process when creating a Secondary Open Pool Posting.

# Creating a Secondary Open Pool Posting from a Position Description

The screenshot shows the Applicant Tracking System interface. In the top-left corner, three dots are highlighted with a red box. A red callout box points to these dots with the text: "1. Select the Applicant Tracking module by clicking the three dots in the top-left corner of the screen." In the top-right corner, a "User Group:" dropdown menu is highlighted with a red box, showing "Initiator" selected. A second red callout box points to this dropdown with the text: "2. Select Initiator from the User Group drop-down menu." The main content area shows a "Recruitment System" dashboard with tabs for "Postings 3", "Hiring Proposals", "Position Requests 3", and "Onboarding Tasks". Below the tabs is a search bar and a "Filters" button. A table displays recruitment data with columns for "CURRENT STATE" and "DAYS IN CURRENT STATE".

	CURRENT STATE	DAYS IN CURRENT STATE
OSTDOCTORAL FELLOWSHIP	Initiator	1846
	Initiator	1813
essor	Initiator	842

On the right side, there is a "Shortcuts" dropdown menu and a dashboard widget showing "0 Active Applicants" with a large "0" and a legend for "Evaluated Applicants" (blue) and "Unevaluated Applicants" (purple). Below this is another widget titled "14 Committees Served By Department last 365 Days" with a donut chart.

NOTE: Use the Posting Documents tab to upload the applicant screening tools for the pool. Applicant screening tools are pre-determined rating mechanisms utilized by a committee during the initial review of applications to determine which candidates are moving forward in the search process. These tools typically consist of the Minimum Qualifications screening form and an Applicant Rating Sheet (aka applicant screening form). These forms must be uploaded on this tab to complete the Secondary Open Pool Posting.

# Applicant Manager – Begin process of transitioning applicants into different applicant workflow states

## Posting: Research Associate II - TMS Lab (Admin Professional/ Research Professional)

Current Status: Approved - Internal

Note: Once on the Applicants Tab, the Applicant Manager will be able to see the applicant's copied over from the General Open Pool. In this example, there are currently 60 active applicants. Because applicants have already been reviewed and interviewed prior to them being copied over to the Secondary Open Pool using the New Open Pool Process, the Applicant Manager can submit their hire request, AFTER they update everyone else's workflow state.
